## SUMMARY

Motivated Computer Engineering fresher with hands-on experience in web development, programming, databases, and AI concepts. Developed academic projects including Face Recognition Attendance System and QR-Based Student Information System. Published a research paper on LLM-based multimodal stock market prediction. Strong communicator and fast learner.

## PROJECTS

### Face Recognition Attendance System

- Automated attendance system using face recognition to reduce manual effort and improve accuracy.

### QR Code Information System

- System that provides instant access to information through QR code scanning.

### Cryptocurrency System

- Basic cryptocurrency system demonstrating transactions and security concepts.

## EDUCATION

### B.Tech – Computer Engineering (2022–2026)

- Sandipani Technical Campus, Latur | DBATU

**HSC (Science)** – 2022 | Sharada Junior College, Latur

**SSC** – 2020 | Jijamata Kanya Prashala, Latur

## ADDITIONAL INFORMATION

### 1. Technical Skills:

- Languages: Python, C, C++
- Web: HTML, CSS, JavaScript
- Database: MySQL
- Tools: VS Code, GitHub

### 2. Achievements & Strenghts:

- Completed academic and research projects addressing real-world problems
- Strong teamwork, leadership, and communication skills
- Effective time management with ability to meet deadlines
- Passionate learner interested in emerging technologies

### 3. Languages: Mararhi, Hindi, English

### 4. Certifications: Mastering Python, Web Development (HTML, CSS, JavaScript)

### 5. Research & Publications:

“LLM-Enhanced Multimodal Framework for Stock Market Prediction”

Published research integrating LLMs with price and textual financial data

Focused on improving prediction accuracy and analysis.
